AquaSeal F1807 Poly Mini Manifolds are manufactured from Acudel, a modified polyphenylsulfone (PPSU) conforms to ASTM F877, NSF-61, PW-G, CAN/CSA B137.5 standards. Poly fittings can be used on Pex plumbing systems. F1807 fitting connections are completed using a Pinchlok clamps or stainless steel press sleeves.

AquaSeal Series 26300 Poly Mini Manifolds

Installation

- ComfortPro has patented a stainless steel sleeve for F1807 and/or F2159 fittings
- Press Sleeve is a compression sleeve that incorporates tube stop at the top to evidence proper placement of the tube against the the tube stop on a fittings ensuring a perfect installation.
- Connection is made by compressing the sleeve to create a full 360-degree seal over the press sleeve.
- Sleeves can be pre-loaded onto the tube or fitting before installation and can remain in place for ease of installation.

Note: For part numbers refer to ComfortPro product guide page 50

AquaSeal Plastic Poly Mini Manifolds are manufactured to the ASTM F877, F1807 & CSA B137.5 standards and approved by CSA, IAPMO, and NSF.

Our Products Conform to the standards listed below:

NSF 61-G (372), PW-G
NSF 61 Annex F
EPA: CFR Title 40, Part 141 (Safe Water Drinking Act)
California Law AB 1953
Vermont ACT 193
NSF/ANSI 14
Maryland HB372
Louisiana HB471

SPECIFICATION

Insert for fittings conform to F1807
Thread conform to ANSI/ASME B1.20.1 Certification
CSA(C37700C46400C69300C48600
